Exclusion of SEAI's liability

- SEAI is not paid by home owners for works done under the Better Energy Warmer Homes Scheme.
- SEAI is not responsible for, and hereby excludes all liability (including in respect of any direct, indirect or consequential loss or damage) whatsoever arising out of or in connection with (i) any defects in any works or services undertaken under the Better Energy Warmer Homes Scheme, (ii) any damage caused, and (iii) any default, acts, omissions or negligence.
- The building contractor that does the works in your home under the Better Energy Warmer Homes Scheme will provide you with:
 - a guarantee that the works undertaken will be fit for the purpose intended for a period of 24 months from completion of the relevant works; and, where applicable,
 - a separate 25 year guarantee from the cavity wall insulation supplier.
- You should ensure that you get these guarantees before works are started in your home. Please note that you are solely responsible for ensuring that you are provided with the guarantee(s). If there is any problem with or defects in the works, you should ask the building contractor or cavity wall insulation supplier to remedy the defect in accordance with the guarantee(s) provided to you.
- If the building contractor or cavity wall insulation supplier will not remedy any defect in accordance with the guarantee, please let us know and we will implement our complaints process which hopefully should bring about an amicable resolution between you and the building contractor in relation to the matter. If the complaints process does not bring about an amicable resolution, you can take whatever further steps you feel are necessary to vindicate your position, but please note that SEAI will have no further involvement once the complaints process has been completed.
- If you do not understand the implications of the above, we recommend that you get independent legal advice.

Please note if for any reason SEAI are unable to proceed with an application for your property under the Better Energy Warmer Homes Scheme and you feel there are extenuating circumstances, you may submit an appeal to SEAI setting out clearly the circumstances or mitigating factors which you believe are relevant. This can be sent by email or post to the above addresses.
